Preference for dates will be given to the team whose application is received first. The competition with priority may agree to allow another competition within three hundred (300) miles.

8. A copy of the prize list of a Recognized Competition must be sent to the AVA Competition Secretary, the Technical Committee Chairman, the Judges, and all Registered Clubs in the region at least thirty (30) days prior to the competition, otherwise, recognition will be rescinded. Emailed notification of Prize List availability meets the prize list distribution requirement; however, the AVA Competition Secretary must be sent a copy of the Prize List, either postmarked or emailed thirty (30) days prior to the competition. AVA RULES FOR VAULTING

Rules for Vaulting are the rules for the performance of the sport of vaulting. Rules for Vaulting are developed by the Technical Committee and presented to the Board of Directors for consideration and, upon concurrence, adoption.

CHAPTER I. GENERAL

Article 101. Introduction.
1. Vaulting is the art of gymnastics/dance on the moving horse. The competition is judged on the smooth and correct execution of the compulsory exercises, freestyle programs and technical tests by the vaulters in sympathy and harmony with the horse working on the lunge line.
    Harmony with the Horse is achieved by performing every movement, compulsory or freestyle, in unity with the horse. A horse’s movement produces significant power and inertia, and harmony is achieved when a vaulter balances their strength and suppleness to synchronize with that movement. The objective is to create a cohesive unit consisting of the Lunger, Horse and Vaulter(s) working as one, with vaulter(s) moving in accord with and causing no adverse effect on the horse. The horse should be a willing partner totally accepting of the vaulter(s) with uninterrupted balance and free flowing movement.
   2. For a description of the compulsory exercises consult Appendix D of this Rule Book and/or the current FEI Guidelines for Judges. For an explanation of the degree of difficulty of freestyle exercises, consult the current FEI Code of Points.

Article 102. Recognition.
1. All AVA Recognized Competitions must have completed procedures for recognition as per Standing Rules. (See Standing Rules, Section VIII – Recognized Competitions).

APPENDIX C
CHAPTER XVI. NOVICE EVENTS

These guidelines follow American Vaulting Association rules and Guidelines as closely as possible in these novice classes. They are designed to help and encourage vaulters who are unable to vault onto the horse without assistance. This may include, but is not limited to, handicap/special needs vaulters. There are no age limits.

Article 1601. General Requirements for all events in Appendix C:
1. Vaulter must need an assisted mount onto the horse or onto the barrel. The assisted mount is scored on form only.
2. Vaulter may have spotters present during compulsories and freestyle. Vaulters will receive a deduction for assistance (other than the mount) in Novice Trot and Novice Advanced Walk but not in Novice Walk and Novice Modified Walk.

Article 1602. Eligibility for all events in Appendix C:
1. Vaulter must be a Youth or Adult Member of the AVA.
2. Vaulter may not hold any medals with the exception of the novice pin.
3. Vaulter must have an assisted mount.

Article 1603. Individual Novice Trot Events:
This event consists of one (1) round of Compulsories and Freestyle performed at the trot to the left.
1. Compulsories are the same as the Individual Trot event with the exception of the required assisted mount, which is scored on form only. Assistance of any compulsory exercise (with the exception of the mount) will result in a zero (0) for the assisted exercise.
2. Freestyle is a one (1) minute routine of static and dynamic exercises. An assisted mount is required with no penalty. Assistance of any freestyle exercise will result in a deduction of two (2) points from the total performance score. Exercises chosen for freestyle should be limited to Degree of Difficulty M or E only (as defined in the current FEI Vaulting Guidelines for Judges). Freestyle exercises other than M or E will result in a two (2) point deduction from content.

Article 1604. Individual Advanced Novice Walk Event:
This event consists of one (1) round of compulsories and freestyle performed at the walk to the left.
1. Compulsories are the same as the Individual Trot event with the exception of the required assisted mount, which is scored on form only. Assistance of any compulsory exercise (with the exception of the mount) will result in a zero (0) for the assisted exercise.
2. Freestyle is a one (1) minute routine of static and dynamic exercises. An assisted mount is required with no penalty. Assistance of any freestyle exercise will result in a deduction of two (2) points from the total performance score. Exercises chosen for freestyle should be limited to Degree of Difficulty M or E only (as defined in the current FEI Vaulting Guidelines for Judges). Freestyle exercises other than M or E will result in a two (2) point deduction from content.

Article 1605. Individual Novice Walk Event:
This event consists of one (1) round of Compulsories and Freestyle performed at the walk to the left.
1. Compulsories are the same as the Individual Trot event with the exception of the required assisted mount, which is scored on form only. Vaulter may have spotters present and no deductions will be taken for any assistance and/or spotting.

**APPENDIX D**

**DESCRIPTION OF 3* INDIVIDUAL/GOLD/2* SILVER/2* BRONZE, 3* A & 2* B TEAM COMPULSORY EXERCISES**

**VAULT ON:** Vaulter runs along the lunge line out to the horse’s shoulder. Before taking the grips, the vaulter’s hips and shoulders should be parallel with the horse’s shoulders. After taking the grips, the vaulter jumps forward onto both feet, lowers his head and upper body and swings his right leg up immediately, as high as possible, lifting the pelvis higher than the head. The left leg should remain stretched down, and the body should remain facing forward (not turned in to the horse). When the pelvis is at its highest possible point, the vaulter should lower the stretched right leg and land softly and centered on the horse’s back, upper body vertical, ready to perform the Basic Seat.

**BASIC SEAT (Not performed in 3* Individual and 3* A Team):** Vaulter sits astride, erect and centered immediately behind the surcingle. The vaulter’s legs are stretched down and in contact with the horse, forming a straight vertical line through the shoulder, hip and heel. The vaulter’s shoulders should be parallel to the handles of the surcingle. The vaulter’s arms are extended outward along the frontal plane, with the tips of the fingers at eye level. Legs are down and the front of the knees, ankles and toes form a straight line facing nearly forward. The vaulter should be looking straight ahead and sitting comfortably on the horse’s back. This position must be held a minimum of four strides. Upon completion of the exercise, the vaulter takes the grips with both hands simultaneously.

**FLAG:** From seat astride, the vaulter comes to a kneeling position with both legs simultaneously and diagonally across the horse’s back to perform the Flag. Vaulter’s weight is spread evenly over the lower leg. The lower leg, from knee to toe, remains in permanent contact with the horse’s back. The vaulter’s head should remain up and looking forward, as the right leg and left arm are raised simultaneously and stretched to an even horizontal line (at least above the vaulter’s shoulder and hip; ideally a horizontal line from fingertip to head level and toes); There is an even arc in the vaulter’s body from the hand through the foot.
Right hand holds the grip; the shoulders are directly above the grips and the vaulter’s hips and shoulders are parallel to the ground. Upon completion of the Flag (held a minimum of 4 strides), the vaulter simultaneously brings his right leg and left arm down, takes the grips, pushes weight onto his arms and stretches the left leg down and slides softly into seat position.

**MILL:** The Mill is an exercise in which the vaulter must remain seated throughout the exercise. In no phase may he/she abandon the seat position. From forward seat astride, the vaulter makes a complete rotation on the horse’s back in 4 evenly-timed phases. Each leg is stretched and carried over the horse in a high, wide arc, like a semi-circle. The down leg remains stationary and in contact with the horse. The upper body stays upright, centered and nearly vertical in each phase. Head and body rotate with each leg pass. The Mill has four phases and is performed in a four-stride count.

**Phase 1:** The vaulter carries his/her right leg over the horse’s neck. Each grip is released and retaken as the leg passes. Phase 1 ends with the vaulter sitting in a sideways seat, facing the lunger, legs together and in contact with the horse.

**Phase 2:** The left leg is carried over the horse’s croup. Phase 2 ends with the vaulter sitting backwards. The hands change position on the grips.

**Phase 3:** The right leg is carried over the croup. Phase 3 ends with the vaulter sitting in a sideways seat, facing the outside of the circle, legs together and in contact with the horse. The hands change position on the grips.

**Phase 4:** The left leg is carried over the horse’s neck. Each grip is released and retaken as the leg passes. Phase 4 ends with the vaulter sitting in forward seat astride.

**SCISSORS 1st PART:** From seat astride, the stretched legs are swung upward (back) to reach nearly a handstand position with arms extended to attain maximum elevation. Without interruption in this movement, and at nearly the point of maximum elevation, the hips are turned to the left by a quarter of a turn so that the legs pass closely at an equal distance from the ground. The exercise is fulfilled by landing softly, upright and centered in reverse seat.

**SCISSORS 2nd PART:** The rotation of the body is finished before the vaulter lands softly, upright and centered in seat astride. From reverse seat, the vaulter swings the stretched legs upward, with the hips and feet reaching the highest possible point at the same time. The arms are extended to attain maximum elevation. The angle between the arms and torso is as great as possible. Without interruption of movement, the hips are turned to the right so the legs pass closely and cross at nearly the point of maximum elevation. The legs show a high arc with both feet an equal distance from the ground. The exercise is completed by landing softly, upright and centered in forward seat.

**STAND:** From seat astride, the vaulter comes softly to both knees simultaneously and immediately hops softly to both feet. Head remains up; eyes looking forward. The feet remain stationary with the vaulter’s weight evenly distributed over the entire sole of the foot throughout the exercise. Feet are close at hip width and point forward. The grips are released simultaneously, as the vaulter rises to a high standing position, forming a straight line through the shoulder, hip and heel. The arms are immediately extended and stretched outward along the frontal plane, with the tips of the fingers at eye level. Upon completion of the static exercise (held for 4 strides), the arms are lowered alongside the body, and the vaulter reaches down to take the grips simultaneously with both hands. The head remains up, looking forward, while the vaulter slides smoothly with straight legs into astride position.

**FIRST PART OF FLANK (3* INDIVIDUAL/GOLD/2* SILVER/2* BRONZE/3* A AND 2* B TEAM):** A straight axis of the body, which reaches nearly the vertical is the essence of the optimal mechanics of the Flank. A straight line continues throughout the body from the arms to the feet. A straight body axis is the main criteria for judging. An arched back can be deceiving and can simulate a higher elevation.

From seat astride, the stretched legs are swung upward (back) to reach a handstand position with the arms extended to attain maximum elevation. Without interruption in the movement, at the point of maximum elevation, the hips are bent sharply so that the legs come down to a near vertical position (creating a pike) during which the hips are momentarily over the surcingle. The vaulter slides softly into an upright sideways seat inside position, making contact with the horse first with the outside of the lower right leg.

In A Team, the vaulter performs leg over, back to seat astride as follows: From inside seat, the vaulter carries the stretched right leg over the horse’s neck in a high, wide arc (like a semi-circle). The upper body remains erect and nearly vertical, while the left leg remains down and in contact with the horse, with no change in position. Handles are released and retaken as the leg passes.

For Silver/Bronze/B Team, after performing the First Part of Flank, the vaulter then performs a Push off to Inside to complete the compulsory dismount. From the inside seat the vaulter rotates his pelvis and his core to facing forward. After only a fluent, short moment of contact with the horse with the outside of the upper right leg and with closed legs and stretched hips, the vaulter pushes against the handles upwards and backwards (maximum of one track to the side, away from the Horse. The handles are released and the vaulter lands with legs hip width apart, hips and shoulders parallel to the horse’s shoulders. The
upper body slightly bent forward in the absorption phase of the landing and continues in a controlled run in the same direction as the Horse.

*Note: There is no separate score for the Push Off. Faults in the Push Off shall be deducted from the First Part of Flank.*

**SWING OFF TO OUTSIDE FROM SEAT ASTRIDE (3* A TEAM):**
From seat astride, the stretched, closed legs are swung upward (back) to reach a handstand position with the arms extended to attain maximum elevation. At the maximum arm extension, the vaulter pushes against the grips (pushing back toward the rear of the horse), and as a result of shoulder repulsion attains additional elevation and maximum flight. The vaulter lands to the outside, facing forward, on both feet.

**FLANK 2ND PART (GOLD INDIVIDUAL /3* INDIVIDUAL):**
From an upright sideways (facing inside) seat, the vaulter swings the stretched, closed legs upward to reach a handstand position with the arms extended to attain maximum elevation. At maximum arm extension, the vaulter pushes against the handles and as a result of shoulder repulsion attains additional elevation and maximum flight, landing to the outside, facing forward, on both feet.

**DESCRIPTION OF 1* COPPER/1* TROT AND 1* C/1* TROT TEAM, PRELIMINARY 2-PHASE TEAM COMPULSORY EXERCISES**

**MOUNT:** See Compulsory 2* and 3* Mount

**BASIC SEAT:** See Compulsory 2* and 3* Basic Seat

**FLAG:** See 2* and 3* Compulsory Flag, except (1*): upon completion of the static exercise (Flag), the vaulter lowers the right leg to a bench position. The 1* Flag completes in the bench position.

**STAND:** The 1* Stand begins from bench position. The remainder of the exercise is performed as the 2* and 3* Compulsory Stand.

**SWING FORWARD LEGS CLOSED:** From seat astride, the stretched legs are swung upward (back) to reach a handstand position. The vaulter’s arms are extended to attain maximum elevation. The vaulter’s legs are closed and stretched at maximum elevation. Without interruption in the movement, and at the point of maximum elevation, the vaulter returns softly to seat astride. A straight axis of the body which reaches nearly the vertical is the essence of the optimal mechanics of this exercise. A straight line continues throughout the body from the arms to the feet. A straight body axis is the main criteria for judging. An arched back can be deceiving and can simulate a higher elevation.

**HALF-MILL:** The Half-Mill has 2 phases. The vaulter may not abandon his/her seat position during either phase. The first phase is performed in a four (4) stride count, followed immediately by the second phase.

**Phase 1:** See 2* and 3* Compulsory Mill Phase 1

**Phase 2:** See 2* and 3* Compulsory Mill Phase 2.

**SWING BACKWARDS, LEGS OPEN FOLLOWED BY DISMOUNT TO INSIDE:** From reverse seat, the vaulter swings their stretched and opened legs (hip width) upward, with the hips and feet reaching the highest possible point at the same time. The arms are extended to attain maximum elevation and the angle between arms and torso is as great as possible. Then the vaulter softly returns to reverse seat.

The vaulter then performs a reverse ¼ mill by carrying the stretched left leg over the horse’s croup, in a high wide arc to inside seat. The vaulter, while holding the inside grip, rotates to facing forward. With closed legs and stretched hips, the vaulter pushes against the grips upwards and away from the horse. They release the grips and lands with nearly closed legs and continues in the same direction as the horse.

*Note: There is no separate score for the dismount. Faults in the dismount shall be deducted from the swing backwards.*

**PROPOSED DISMOUNTS FOR INDIVIDUAL 1* COPPER AND 1* TROT:**
1. Simple Vault off (leg over neck to inside or to outside)
2. V-Sit off (any direction) landing facing forward
3. Slide off out of inside or outside press – landing facing forward
4. Sliding off any seated, kneeling or lying exercise landing facing forward.
5. Any other Level E dismount that lands facing forward. Any Level E dismount landing in any other direction than forward will incur a deduction from the Content score.
6. Any Level E dismount landing in any other direction than forward will incur a deduction from the Content score.
7. Any R, D or M level dismount will incur a deduction from the Content score.
8. Any R, D or M level dismount will incur a deduction from the Content score.
9. See A V A Rules Chapter III. Scoring, for penalties and deductions. *Note: Deviations from described dismounts will incur deductions from Content score. Performing dismounts that are Level R, D or M will incur a one (1) point deduction from Content.*
DESCRIPTION OF “D” COMPULSORIES

MODIFIED BASIC SEAT

Essence: Harmony, balance, seat and posture
The vaulter sits astride, erect, and centered directly behind the surcingle, with legs down and in contact with the horse, forming a straight vertical line through the ear, shoulder, hip, and heel. The arms are extended and stretched forward with the tips of the fingers at eye level, keeping shoulders back (good posture). The vaulter should establish a seat, where two-thirds of the weight is distributed equally on the two seat bones and one-third is distributed down the legs.

Basic Scoring:
Score of 10 - Three-point seat with torso upright, legs down and in contact with the horse, forming a straight vertical line through the ears, shoulders, hip and heel and following the horse’s movement perfectly. Arms out front, fingers at eye level.
Score of 6 - Three-point seat with torso upright but with slight posture issues. The horse’s movement is absorbed satisfactory.
Score of 5 - Extreme legs forward or “Chair Seat”
Score of 4 - Extreme arched back and no weight on seat bones. Bracing of legs to keep from falling forward (Remember arms are forward). Classic forked seat.

BOX

Essence: Establishing good base of support for flag
From seat astride, the vaulter swings into box, with both legs simultaneously, landing first on the tops of the ankle and slowly lowering to the shin and knees. Legs are on either side of the horse’s spine with weight distributed evenly. Toes are pointed and conforming to the horse’s back. Shoulders are directly over the hands and at the same height as the hips, with the elbows close to the torso. Hips are nearly at a 90-degree angle from the torso to the upper leg and are directly above or slightly behind the knees. Head remains up facing forward.

Basic Scoring:
Score of 10 - Vaulter swings upward, landing softly into box. Lower legs are completely against the pad and horse. Shoulders are at same level as hips and back is straight. Elbows are tucked in and head is lifted.
Score of 8 - Shoulders are slightly higher than hips but back is still straight. Score of 6 - Shoulders clearly higher than hips with slight arching or rounding of the back. Some air under lower leg.
Score of 4 - Shoulders well above hips. Arched back with lower legs off the horse. Elbows turned outward.

QUARTER MILL TO INSIDE SIDE SEAT

Essence: Harmony, balance, seat and posture
From seat astride the vaulter makes a leg pass to the inside with the right leg completely stretched. The leg is carried over the horse in a high, wide arc (like a semi-circle), each handle is released and retaken in turn as the leg passes. The mill ends in inside seat with legs together and in contact with the horse. The upper body stays erect and centered. Head and body rotate with each pass of the leg. Both hip bones stay in contact with pad during entire exercise. There are no timing faults for the leg pass in the quarter mill.

The vaulter sits in an inside side seat with arm out for four (4) strides. The vaulter is facing at a right angle to the horse’s shoulder axis. The right hand is moved to the inside grip. The left hand is extended out laterally with the tips of the fingers level with eyes.

The right leg is carried back over the horse’s neck at a controlled pace. Leg stretches softly down to wrap. The exercise is completed with the vaulter sitting forward in seat astride.

Basic Scoring:
Score of 10 - Leg is fully stretched and at or above 45 degrees as it passes over handles. Torso is nearly vertical with good posture. Vaulter maintains posture in inside side seat with arm out (and inside handle is being held). Legs are against horse and together.
Score of 8 - Leg is slightly less than 45 degrees but is still stretched. Good form and posture are maintained throughout. Form is good in the side seat.
Score of 6 - Slight loss of form and posture during leg pass and side seat. Legs slightly apart but still against horse. Satisfactory harmony in seat.
Score of 4 - Poor form or posture. Elevation of leg is very low. Not able to properly sit in the side seat with arm out (lacking harmony in the side seat)

QUARTER MILL TO OUTSIDE SIDE SEAT

Same as above; except the left leg is carried over the horse’s neck to the outside and ending with the vaulter sitting in a sideways seat facing outside. The left hand moves to the outside handle and the right hand is extended laterally. Finally, the left leg is carried back over the horse’s neck, landing back in forward seat astride.

SWING TO FORWARD PLANK

Essence: Initiating swing, core strength and control
Stretching both legs forward, the vaulter swings through an arc in an upward direction. The upper body remains upright and the legs remain straight throughout the movement. Vaulter hovers momentarily above the horse before landing softly in plank with the tops of the feet together on the horse’s croup and shoulders in front of or directly above the hands. Body forms a
stretched line from the top of the head to the hips and from the hips to the heels with a flat back. Legs are together and on either side of the horse’s spine. The shoulders are in front of the handles with the arms straight. The vaulter’s weight is mostly in the arms with the remainder on the stretched foot and ankle. After four strides, the vaulter bends the knees to begin modified kneel.

Basic Scoring:
Score of 10 - Vaulter holds the stretched and slightly curved hollow body position without losing tension (sagging in middle). Arms remain straight and shoulders stay in front of handles. Legs are held together throughout exercise.
Score of 8 - A brief loss of core tension during the exercise.
Score of 6 - The slightly curved line is broken at the hips (slight arched back or flexed hip) but held steady. Legs slightly apart.
Score of 4 - An extreme break in the back/hips or loss of core tension. Legs apart and/or knees bending.

MODIFIED KNEEL, SCISSOR DOWN TO REVERSE SEAT
Essence: Balance, security and control
The vaulter slides the knees forward and directly under the hips with the lower legs angled slightly outward. The vaulter’s weight remains evenly distributed along the lower legs. Upon releasing handles the arms are extended and stretched forward with the tips of the fingers at eye level. The hips press forward into a kneeling position, forming a straight line between the head, shoulders, hips, and knees.
After four strides, the vaulter takes the grips with both hands simultaneously, then shifts weight forward and over the hands. Vaulter straightens legs, lifting hips into the air momentarily, then crosses the outside leg in front of the inside leg, turning the hips to the inside, and slides down to reverse seat. Vaulter maintains in controlled contact with horse from the ankles through the knees and seat.

Basic Scoring:
Score of 10 - Kneeling directly behind surcingle with lower legs flat, knees together and feet slightly apart. Straight line from ear to shoulder to hip and to knee. Excellent posture with hands at eye level.
Score of 8 - Slight separation of knees. Slight break in line at hips. Good posture and arms.
Score of 6 - Clear separation of knees. Arms too high or low. Some weakness in posture or flexion of hips.
Score of 5 - Hips flexed around 90 degrees.
Score of 4 - Lower legs coming off pad. More than 90 degrees of hip flexion and posture issues. Loss of form.

REVERSE PLANK WITH QUARTER MILL DISMOUNT TO INSIDE
Essence: Initiating swing, core strength and control
Beginning in a reverse seat with hands on top of the handles, the vaulter pushes into an arced position with the shoulders reaching up and away from the surcingle. The vaulter swings the legs toward the croup with the shoulders traveling past the surcingle toward the horse’s neck. The vaulter swings with a hollow body and lands softly into Reverse Plank with the feet together. Facing upward, the body forms a stretched line from the top of the head through the hips and ankles. With hands on top of the handles, the vaulter’s arms are stretched with the shoulders above or slightly behind the handles. Legs are together with feet on either side of the horse’s spine. The head is the extension of the longitudinal body axis. After four strides, the vaulter slides down to reverse seat, keeping the hips elevated until the body is vertical directly behind the surcingle.
From seat rear ways, the vaulter performs a reverse quarter upper right leg and with closed legs and stretched hips, the vaulter pushes against the handles upwards and away from the Horse. The handles are released and the vaulter lands with legs hip width apart, hips and shoulders parallel to the horse’s shoulders. The upper body slightly bent forward in the absorption phase of the landing and continues in a controlled run in the same direction as the Horse.

Basic Scoring:
Score of 10 - A swing that lands lightly on the horse’s croup in a straight body plank position. Shoulder blades pulled together and head in line with torso and legs. Strength and tension are maintained throughout exercise. Legs are held together. Body lowers into Reverse seat with control. There is height and stretch during leg pass.
Score of 8 - The swing lands lightly. Strength and tension are maintained but head is not in line. Legs are slightly separated. Return to reverse seat is not as stretched and controlled.
Score of 6 - Swing lands lightly but body is not as tense and there’s some bend in hips. Legs are not completely together. Leg pass to inside seat has form but is lower than 45 degrees.
Score of 4 - Swing into reverse plank does not land lightly onto croup. Shoulders are rounded and there is a break in the line at the hips. There is a constant lack of tension and security. Leg pass is lacking form and elevation.
